

# Fiberglass insulation sleeve

## 1. Product Information

- Fiberglass insulation sleeve is E-glass fiber braided sleeving coated with polyvinyl chloride resin.
- It has excellent softness and elasticity as well as good dielectric properties and chemical resistance.
- Compatible with all insulation and conductor types
- Non-corrosive and has extremely high fungus resistance
- Woven fiberglass braid impregnated with a heat resistant, extremely tough and flexible plastic insulation
- Line color: Blue, red and all kinds of color
- Length: In one meter, in coils 50m-100m/coil, also can be customized.
- Application: Insulators, Electrical winding insulation, winding wire coating insulation, electrical base, shell, motor, switch baseplate.

## 2. Model number :

Ex model: **FIS-PVC-D3x1M-R** or **FIS-PVC-D3x1M-R**

**FIS - PVC -**  **x**  **-**

### 1. Diameter

D1: 1mm  
D2: 2mm  
D3: 3mm  
D4: 4mm  
D5: 5mm  
D6: 6mm  
D7: 7mm  
D8: 8mm  
D10: 10mm  
D12: 12mm  
D14: 14mm  
D16: 16mm  
D18: 18mm  
D20: 20mm  
D22: 22mm  
D25: 25mm  
D35: 35mm  
D40: 40mm

### 2. Length

1M: 1m  
50M: 50m  
100M: 100m

### 3. Line color

B: Blue  
R: Red
